* The Reg. (CE) n.1272/2008, commonly known as CLP Regulation, sets up also other pictograms representing further hazard categories that, not being part to the Sutter products' classification, are not shown in the above table. For further information → <https://echa.europa.eu/regulations/clp/clp-pictograms>

This table is aimed only at providing the users with an explanation of signs and pictograms related to the most common hazards and emergencies in the cleaning sites and in the dealers warehouses/facilities. Please refer to the local HSE manager and the risk assessment document to have the complete information on hazards and risk preventive measures.
